WASHED CONCRETE SAND

S P E C S H E E T

Category: Aggregate

- ✓ Used to create a strong foundation or base layer and combines coarse and fine particles.
- ✓ Commonly found in concrete but is also commonly used in landscaping
- ✓ Used to create mortar for bricklaying and other applications.
- ✓ Environmentally Safe
- ✓ Color: Tan

Common Uses:

Concrete sand is also often used to provide a smooth surface in areas such as driveways, patios, and sidewalks.

It is important that the concrete sand is free of organic material. If not, this can weaken its overall structural strength.
